

"CONSCIOUS RELATING" COURSE

Testimonials

"For me, yesterday's practice was intense. It's a very deep meditation. It goes so deep inside! I felt I was bathing in the energy field that holds us all. It allows us to think, to feel... it's very beautiful. Meeting P.'s eyes was an experience of uninterrupted connection. This is something we all need!!! I kept breathing consciously all day long - without losing that connection. And everything went well. If things worked out - great! If things didn't work out - great! It was so easy!!!!!"

María, Psychologist.

"Hello everyone ñ Since our last meeting, I've been feeling a deep and expansive enthusiasm for everything that I am experiencing, and for everything I feel birthing in me - or that I have found in myself and in everything, since this journey began. After these few weeks together we're all feeling, and expressing quite emotionally, that the word "course" just doesn't do it justice!

This adventure, this journey that you, Mark, have shared with us, has been a compendium, an understanding and an opening to so many of the great questions and transcendental concerns that have arisen in me; that have accompanied my spirit; that have been trying to find understanding... to find others... to find tribe ñ I feel where I am now so much more clearly. This experience has triggered a great opening in me. It's as if, in some great puzzle far beyond this matrix, lots of loose pieces have been found, assembled and fused."

Susana, Asturias.

"Good morning! I continue to savour the experience of the simple, intimate encounter that I had yesterday - that was reborn in my heart - thanks to the presence of K... It's an incredibly delicious practice! It was an honour to share the mystery of the intimate divinity of-and-with K."

Bethlehem,

"It's incredible that through a screen, at a distance of several hundred kilometers, we can still feel another person - using such an apparently simple practice.

In that intimacy I felt a certain ecstatic "pleasure", without the need for physical contact. It was very similar to what happens when a couple... let's say it clearly - when they have an intimate and physical encounter. It was wonderful. This morning I was already looking forward enthusiastically to our meeting in the evening. It's been a real pleasure. Thank you, thank you, thank you.^d ñ

Michael, Teacher/Astrologer/Kinesiologist
